Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - A. Claims 1-4, 7, 8-11, drawn to method for registering a customer, classified in class 705, subclass 18.
 - B. Claims 5-6, 12-15, drawn to method for authenticating a user, classified in class 705, subclass 44.
 - C. Claims 16-19, drawn to method for surveying customers, classified in class 705, subclass 7.
 - D. Claims 20-24, drawn to method for presenting a prize to a customer, classified in class 705, subclass 14.
 - E. Claim 25, drawn to method for extending a warranty for a purchased merchandise, classified in class 705, subclass 26.
4. Inventions A, B, C, D and E are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention B has utility separate from that of inventions A and C-E, such as authenticating an identity of customer payment authorization; invention C has utility separate from that of inventions A, B, D and E, such as conducting a survey regarding a customer service; invention D has utility separate from that of inventions A-C and E, such as distributing a promotion to a customer; and invention E has utility separate from that of inventions A-D, such as offering an extended warranty for a product. See MPEP § 806.05(d).
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, or patentability requirements, restriction for examination purposes as indicated is proper.
6. A telephone call was made to Mario A. Costantino , Esq. (Reg. No. 33,565) on 09/20/2006 to request an oral election to the above restriction requirement, but did

not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8.
